| <b>REMARKS:</b><br>a. Charge will apply for lost and / or damaged Interface Modem and / or power adaptor.<br>b. One broadband line supports <u>1 computer only</u> .<br>c. Exhibitors are strictly prohibited from connecting the rented broadband lines to any device such as Wireless Access Points or computers to provide any form of ad-hoc wireless networking services which may adversely impact in any way venue's existing Wireless System.<br>d. It is recommended that User orders a data cable for high-speed broadband internet access when running more complex and high-speed internet applications such as File Transfer Protocol (FTP), video streaming, video uploading/downloading, data transfer, real time video broadcast, video conferencing, and/or use of a Virtual Private Network (VPN). For such purposes, a minimum order for a 10 Mbps Fixed IP Broadband Line is required for local usage and a minimum order for a 10 Mbps Dedicated Internet Access (DIA) Line is required for an overseas connection. Any speeds below 5Mbps are commonly used for internet browsing, e-mail, FTP and general needs. |                                                                                                                 |                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                      |            |     |              |     |
| Exhibitors have to give the location plan of the additional communications facilities above. Any change in the location on-site would require an on-site relocation charge 50% of the rental rate.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                 |                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                      |            |     |              |     |
